

The Mortar & Pestle:

MD Custom Rx's monthly e-newsletter

December 2016

Greetings!

At MD Custom Rx, we care about our patients and want to provide you with quality information about your health. If you ever have questions or would like more information, please feel free to ask. We look forward to caring for you and your family.

Sincerely,
Dan, Monica and John

Do You Have Problems Taking Your Medications?

We have found that many people actually want to take their medicine as directed but don't because they can't swallow or their prescriptions cause intolerable side effects.

Our compounding pharmacy can help! Customized medications can help people to receive the medications they need and get better faster. Here are some of the problems that interfere with therapy, and how our compounding pharmacist can help:

- Gastrointestinal upset caused by oral medications: we can usually compound the needed medication into a transdermal gel so that the medication can be absorbed systemically but bypasses the GI tract.
- Bad taste or texture: we can flavor medication in a solution, suspension, lollipop, or lozenge.
- Difficulty swallowing or nothing permitted by mouth: medications can be compounded into dosage forms that are not commercially available, such as a topical/transdermal cream or gel, or a rectal suppository.
- Difficulty breaking tablets or measuring a dose: we can compound medications in the dose that is most appropriate for a specific patient.

- Allergies or sensitivities to dyes, lactose, sugar, alcohol or preservatives: our specially trained professionals can compound medications that are free of problem-causing excipients.

We work together with physicians and other health care professionals and their patients, and customize medications to meet each patient's unique needs.

19035 W. Capitol Drive. Ste. 105
Brookfield, WI 53045

Call to Register. Space is Limited.
262-373-1050
Cost: \$10 per person - receive back as
supplement credit the day of event.

"Millions of Americans suffer low thyroid symptoms despite normal test results often because they are misdiagnosed or poorly managed. Sometimes treating the thyroid is ineffective, because the real culprit is something else."

Order Refills Online

Ordering refills online is easy and convenient. Just complete our online form and your refill can be picked up or shipped to you.
